Toy Haulers

Hidden storage

The New Vision Sportster is designed for maximum comfort and space. The eight foot dinette in the 40P and 38P offers enough space to comfortably accommodate four to six people.

40P/38P TOY HAULER

The u-shaped dinette easily transforms into a comfortable sleeping area or just an area for gathering.

In need of more sleeping area? Then you'll enjoy the benefits of having the standard queen bed loft with its own area for a TV.

Many models offer a TV swivel for optimal viewing.

The New Vision kitchen offers an excellent combination of functionality and luxury.

The side aisle bathroom is designed for a little extra privacy. Available on the 40P, 38P, and 38SB models.

With the large pantry and the generous amount of cabinet and countertop space the kitchen in the spacious 41K and 37K floorplans offer more than enough storage for all your cooking needs.

Our unique sofa and dinette combination create an open roomy space you will truly enjoy, especially when the night falls, or as it occasionally does, the rain falls.

All New Vision floorplans are designed to maximize storage. The 41K and 37K are no exception. The bathroom offers a large linen cabinet and separate storage cabinet for all your bathroom supplies and more.

The elegant bedroom of the New Vision offers the perfect amount of storage space for all your personal belongings. With the loft above the garage area, hide-a-bed sofa and optional cargo beds, the New Vision sleeps large families and lots of friends comfortably. Treat yourself by upgrading the master queen bed to a king size bed (available in most floorplans).

The oversized dinette offers plenty of room for four to eat comfortably.

The bedroom/bathroom suite in the New Vision is elegant and roomy. It offers an incredible amount of the rich cherry cabinetry found in all New Visions. You will appreciate items such as a one piece fiberglass shower and porcelain toilet that add to the residential feel these floorplans offer.

An innovative leader in RV design and development, K-Z's desire is to engineer affordable, high-value products that deliver customer satisfaction year after year.

See for yourself why K-Z has been awarded the Dealer Satisfaction Index six years in a row.

2X2 WARRANTY – The K-Z 2x2 Warranty is a manufacturer's warranty. Each K-Z product is warranted to the original purchaser for twenty-four (24) months from the original date of purchase. Coverage includes appliances, components, construction and FULL structure. Our warranty is also transferable within the first two (2) years for a small processing fee. For a copy of the warranty with full terms and conditions, ask your local K-Z Dealer or visit our web site at <http://www.kz-rv.com>.

VEHICLE LOADING – Every effort has been made to provide the greatest number of options for the recreational owner. Each owner is responsible to select loads allowing the recreational vehicle to remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle.

UNLOADED VEHICLE WEIGHT (UVW) – The typical weight of this trailer as built at the factory. The UVW does not include cargo, LP gas, fresh water, options or dealer-installed accessories.

GROSS VEHICLE WEIGHT RATING (GVWR) – The maximum permissible weight of the trailer, including the UVW plus passengers, all cargo, personal items, fluids, options and dealer-installed accessories. The GVRW is equal to or greater than the sum of the UVW and the NCC.

NET CARRYING CAPACITY (NCC) – The maximum weight of all passengers, personal items, fresh water, food, tools, LP gas, other cargo and dealer-installed accessories* that can be carried by the trailer. NCC is equal to or less than GVWR minus UVW.

* The addition of options will decrease the NCC.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a seasoned veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction.

See specification chart. K-Z affixes a weight label to each new RV which lists weight information for that vehicle.

NOTE: *This information is intended as a guide only. Weights of individual vehicles are approximate. Consult your Owner's Manual for complete loading, weighing and towing instructions. All weights may vary.*
