

COYOTE

CAMPERS & TOY HAULERS

Our relentless pursuit is excellence.

COYOTE

HYBRID

COYOTE LE 23CFK

Coyote Hybrid Lightweight Travel Trailers have many new and exciting floorplans to choose from. The interior boasts (optional) two-tone burl cabinet door inserts with a stain resistant woodgrain linoleum.

The Coyote Hybrid features an optional flush mount european cooktop and large bowl sink. This option provides additional countertop space where space is an issue. Unique flame failure system cuts off gas supply if a leak is detected. Performs 40% more efficiently than other brands and, puts out 30% less CO₂ in the atmosphere. "That's green!"

COYOTE

Lite
by KZ

COYOTE Lite 180

The rollover bed with an ottoman will allow additional seating without taking up valuable storage. In the day time, roll it over for seating ...when the sun sets, fold it down for a peaceful night's rest.

This "jiffy" folds down to create additional sleeping space for over nighters.

COYOTE **ROCK CLIMBER**

COYOTE RC 222

Seat up to six of your family members or friends on this massive u-shaped dinette with decorative corner bolsters.

Fold the cushions down in the evening to create a generous 60" x 75" sleeping surface.

Every convenience required to prepare a tasty meal is right at your fingertips in the attractive kitchen found in the Coyote Rock Climber.

Optional Hunter's Edition exterior graphics.

The Coyote Rock Climber offers an ample 8' x 8' deck to haul your toys. It handles two ATVs, four dirt bikes or four bicycles.

Our relentless pursuit is excellence.

KZ Recreational Vehicles began its relentless pursuit of excellence in 1972. The company's goal was to build travel trailers with quality from top to bottom.

In addition, KZ made a commitment to provide top-notch service to new and existing customers, as well as its many RV dealerships.

Today, KZ continues to pursue those goals with quality materials, dedicated workmanship, quick and courteous service and innovative designs.

KZ Recreational Vehicles is committed to building high quality travel trailers that will take you safely on many adventures. The quality starts with the double welded I-beam chassis with outriggers for stability and durability, topped with a lightweight European frame. Sidewalls are built of 1½" polystyrene block with R-7 foam insulation. All units 18 feet and longer have a crown roof.

The pursuit of excellence is its own reward...

but it's also nice when others recognize it.

KZ Recreational Vehicles has earned the prestigious Dealer Satisfaction Index Award from the Recreational Vehicle Dealers Association seven times. This award means KZ was in the top 20 percent in each category of the RVDA's

Dealer Satisfaction Index.

KZ Recreational Vehicles continues to offer the same level of service year after year.

2X2 WARRANTY – The KZ Recreational Vehicles 2x2 Warranty is a manufacturer's warranty. Each KZ product is warrantied to the original purchaser for twenty-four (24) months from the original date of purchase. Coverage includes appliances, components, construction and FULL structure. The appliances and other amenities are warranted by the individual manufacturers of those components, not KZ. Our warranty is also transferable within the first two (2) years for a small processing fee. For a copy of the warranty with full terms and conditions, ask your local KZ Dealer or visit our web site at <http://www.kz-rv.com>.

VEHICLE LOADING – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Each owner is responsible to select loads allowing the recreational vehicle to remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle.

UNLOADED VEHICLE WEIGHT (UVW) – The typical weight of this trailer as built at the factory. The UVW does not include cargo, LP gas, fresh water, options or dealer-installed accessories.

GROSS VEHICLE WEIGHT RATING (GVWR) – The maximum permissible weight of the trailer, including the UVW plus passengers, all cargo, personal items, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the NCC.

NET CARRYING CAPACITY (NCC) – The maximum weight of all passengers, personal items, fresh water, food, tools, LP gas, other cargo and dealer-installed accessories* that can be carried by the trailer. NCC is equal to or less than GVWR minus UVW.

* The addition of options will decrease the NCC.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a seasoned veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction.

See specification charts. KZ affixes a weight label to each new RV which lists weight information for that vehicle.

NOTE: This information is intended as a guide only. Weights of individual vehicles are approximate. Consult your Owner's Manual for complete loading, weighing and towing instructions. All weights may vary.
