

NXG FRAME BY NORCO INDUSTRIES

# NXG FRAME

The Next Generation in RV Frame Technology

## CONNECT | CONNECT SE

The NXG Frame is a superior quality, highly engineered frame that provides customers with a strong, light weight, consistent foundation on which to build.

RV PRODUCTS GROUP

## ELIMINATES

- Frame failures due to sub-standard steel
- Construction issues caused by improperly placed components
- Uneven main rails - varying camber
- Corrosion caused by incomplete coverage due to painting of stacked frame assemblies
- Paint failures caused by inadequately washed components

## KEY FEATURES

- Constructed with HSLA - High Strength Low Alloy Prime Steel with specifically controlled properties.
- Designed to accommodate both fifth wheel and travel trailer configurations.
- CNC controlled rail fabrication allows placement of components precisely where the manufacturer wants them.
- Manual welding is minimized. Common components are robotically welded for consistent quality.
- All fastened components are joined with Huck<sup>®</sup> fasteners. Huck<sup>®</sup> fasteners provide consistent clamp load.
- CNC controlled camber.
- Designed with flush floor slideouts, ensuring no rise between slideout and main floor for easier movement throughout the unit.

BAL is a registered brand of Norco Industries, Inc. Elkhart, IN USA  
Huck<sup>®</sup> is a registered trademark of Howmet Fastening Systems
